WHEN SOMETHING DOESN'T FEEL RIGHT

Most aligner issues are not emergencies and can usually be evaluated remotely or addressed at your next visit. **If you're experiencing pain or significant discomfort**, please contact us.

Quick Tips For Common **Aligner** Issues

Clear Attachment Came Off — Send us a message on Dental Monitoring so we can review the area after your next scheduled scan to dermine if/when it needs to be replaced.

Aligner Feels Different — Send us a Dental Monitoring scan or photo so we can evaluate the fit and determine the best next step.

Rubber Band Button Came Off — Let us know so we can schedule a repair if needed.

Something Else Doesn't Feel Right? — Don't worry! Send us a photo or scan and we'll help determine what to do.

IN PAIN OR UNSURE WHAT TO DO?

Send us a photo of the area so our team can evaluate it and determine whether you need a comfort visit or if it can wait until your **next appointment.**

Please include the patient's name with your message and photo. **Text us!**
